POSTOP INSTRUCTIONS FOR REMOVAL OF SKIN LESION

- Keep your bandage clean and dry for 24 hours.
- After 24 hours, it may be removed.
- If you have white Steri-Strips over your surgical area, do NOT remove them.
- You may get them wet after 24 hours, but pat them dry after washing.
- Incisions without Steri-Strips should have a thin application of antibiotic ointment applied three (3) times daily until next office appt.
- Call the office the day of your surgery to make an appointment for a one or two week check-up.
- You may take Tylenol as directed, if you have discomfort.
- If you have any questions, please call (216) 561-0312.
